MAY 12 1998

Date 4/may/98

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

The need to fundamentally change  
water policy becomes more evident as the  
urban areas grow. The finite supply of water  
means such luxuries as unlimited growth, total  
lack of control of what type of agriculture California  
has, and other issues need to be part of the  
perspective. Conservation is a start, but will only  
hold the line at best.
